VET-6028R

Revolutionary Multi-Function Video Gastroscope

Compatible with All-in-one Endoscopy System, OR-100 series
Redefining the standard for companion animal digestive endoscopy

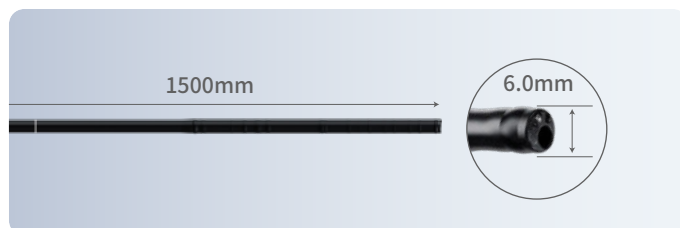

Model	Working length (mm)	Diameter of distal end (mm)	Diameter of instrument channel (mm)	Depth (mm)	Field of view	Range of bending
VET-6028R	 1500	 6.0	 2.8	2-100	120°	U210°D90°L100°R100°

Application Companion animals

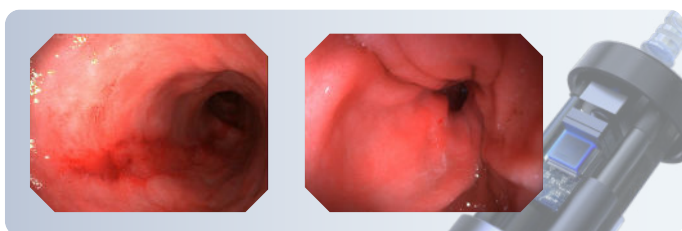

Multi-Function & Beginner-friendly

Unlike conventional 6.0mm endoscopes, the 6028R extends from 1000mm to a 1500mm working length, offering exceptional versatility for a wide range of companion animal procedures. It accommodates from small felines to large canines and is designed to be more beginner-friendly.

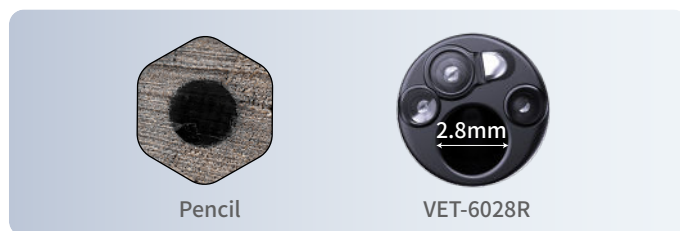

Superior Image Quality

Leveraging advanced imaging technology and proprietary algorithms, the new 6028R endoscope with OR-100 series processor delivers better images.

Gold Standard Instrument Channel

Featuring a 2.8mm instrument channel, the gold standard for companion animals. No more concerns about obtaining adequate biopsies — you can now use a larger instrument.

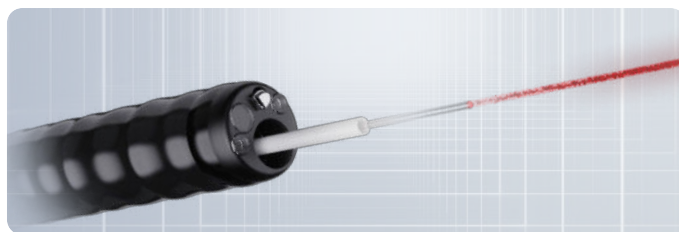

Enhanced Operational Control

The new generation of handle optimized with 4 customized buttons (Default: Freeze, Record, Light on/off, White Balance) and more ergonomic holding design.

Expanded Laser Applications

Using 6028R with a laser system to effectively treat gastrointestinal bleeding, remove tumors and polyps and address gastrointestinal tract stenosis.
